# Hawley Award for Engineering Innovation 2019

The awards recognise and reward the inspirational professionals in the Engineering Fields

The Hawley Award was established in 2006 and is awarded annually for the most outstanding Engineering Innovation that delivers demonstrable benefit to the environment. The award is made by **The Engineers Trust** the Trust Fund of the **Worshipful Company of Engineers**, a Livery Company of the City of London.

BRE Trust is partnering with The Engineers Trust. We would like to encourage nominations that benefit to our environment and reflect the innovation and diversity of the engineering field.

## Prize

A cash prize of up to £5,000, an engraved medal and a certificate will be presented at the Worshipful Company of Engineers Annual Awards Dinner in **July 2019**. The cash is to be used in furtherance of the winner's career, such as educational overseas travel. The winner is required to submit a report that will be published.

## Eligibility

To apply for the Hawley Award for the Engineering Innovation, the individual must be:

- ✓ A resident of the UK in current membership of a recognised professional engineering institution, at the graduate level or above (i.e. student members will not be eligible).
- ✓ An early career stage engineer or scientist, in academia or industry, typically within 10 years of starting a professional career.
- ✓ An individual candidate who has personally produced an engineering innovation. Exceptionally, a small team may be considered where the innovation has a highly multi-disciplinary nature.

## Criterion

The successful Innovation will:

- ✓ Have demonstrable benefits, innovative contribution for the environment.
- ✓ Arise from work undertaken after the gaining of a graduate or post-graduate degree from a recognised UK university or during studying a post-graduate degree. (Work undertaken for a Bachelor or Master will not be eligible.)
- ✓ Have at least reached a stage where a prototype has been developed or proof of concept demonstrated, and there is an expectation that the technology will be developed commercially. The results of laboratory-based research will not of themselves be sufficient to qualify for the Award.

## Deadline

The deadline for the 2019 Award is **Friday 5th April 2019 GMT 24:00**.

## Application

Submissions should be made to FAO Vicky Brown at [hawley@bretrust.org.uk](mailto:hawley@bretrust.org.uk) by completing this application form and accompanying report of no more than 1,000 words. All nominees then will receive notification of the success of their entry into the shortlist by email.

# Hawley Award for Engineering Innovation 2019 Application Form

Application Form (to be accompanied by 1,000 word submission)

## Applicant's details:

Applicant's full name:

Telephone:

Home address:

Email:

Date of birth:

Nationality:

Degree (including subject):

Awarding Institution and date:

Name and address of employer:

Role/Job title in college/Company:

Title of submission:

If my application is successful, the prize money will be used for:

Date:

Signature of applicant:

## Details of the Supporter (Director, Senior Manager, Tutor) who endorses the submission:

Supporter's name:

Supporter's title:

Relationship to candidate:

Telephone:

Supporter's address:

Email:

Signature of endorsee:

## To complete your application the following submissions are required:

### CV

Please give details of education and career progression to date, describing your role and responsibilities. Include qualifications, awards, scholarships or merits.

### Summary of your proposed study

Please submit a maximum of 1,000 words to explain the nature of the study you would like to undertake and to demonstrate how the study would be used in the industry and how the study would achieve significant personal development for you.

### Where to send your entry

All submissions, in word or pdf format, along with this application form should be sent to **Vicky Brown** at [hawley@bretrust.org.uk](mailto:hawley@bretrust.org.uk) by Friday 5th April 2019 GMT 24:00. If you have any queries you can call 01923 664 526.

### What happens next?

The award recipient will be interviewed in May 2019 and the award presented at The Worshipful Company of Engineers Awards dinner in July 2019.
